BaZi Beginner Workshop · Sunday 6 December 2026, 2:00 to 5:30pm, in person in Singapore

HOW THE PROGRAMME WORKS

From beginner to professional BaZi reader

Everyone starts with the in-person **Beginner workshop**. It is the **first step** of the programme and the first of **16 in-person meetings** with Tiffany.

STEP 1
Beginner workshop
Find your Day Master and your Ten Gods, in person. Next: Sunday 6 December 2026.

Serious reader
Prepare to **start charging** for your readings.

Level 1 **Videos 1 to 3** record the workshop content, with extra exercises on your own chart, so you can revise at home. If you join without the workshop, you start from those same videos. And **in Tiffany's experience, by the end of Level 5 you will analyse a chart more thoroughly than many professional people already offering readings.**

How each level works

Watch
Three blocks of five one-hour videos, with lesson slides, a **Reference Handbook** and a **Workbook**.

Pass
An online assessment of 15 multiple-choice questions for each video. Score **80% or more on all five** in a block (retakes allowed).

Practise
Then join that block's **two-hour in-person class** with Tiffany: practice, comparison and correction. Three classes per level.

Foundations: Your Chart, Chart Time and Elemental Strength

基礎・真太陽時・五行強弱

Find your own **Day Master** and **Ten Gods**, read your strengths, weaknesses and **career pathway**, then learn to prepare an accurate chart, including **real solar time** and Southern Hemisphere births, and judge whether a Day Master is **strong or weak**.

Starts after the Beginner workshop. Videos 1 to 3 recap the workshop, so you can also start here without it. Usual fee SGD 788 (USD 615).

BLOCK 1 · VIDEOS 1 TO 5

Your Day Master, your Ten Gods and the cycles behind them

01 **Find Your Day Master and Understand the Ten Day Masters**
How a BaZi chart is laid out: Heavenly Stems, Earthly Branches, hidden stems and a first look at Luck Pillars. Find your own Day Master and read its natural image and personality.

02 **Understand the Personalities of the Ten Gods**
The Ten Gods as ten types of stars in five families (Companion, Output, Wealth, Influence and Resource), the two stars in each family with everyday examples, and Proper 正 versus Unorthodox 偏 stars.

03 **Find the Ten Gods in Your Own Chart**
Label the seven positions in your own chart, tick the Ten Gods you have, count them and find your trait complexity: Simple, Average or Complex.

04 **Strengths, Weaknesses and Your Career Pathway**
The strengths and weaknesses of each of the Ten Gods, and how your Month Branch Ten God shows your priorities, your sense of security and a pathway to career success and wealth, with a well-known public figure's chart as a case study.

05 **Five Element Cycles and the Ten Gods**
The producing 相生 and controlling 相剋 cycles behind every Ten God name, three grades of control (Clash 沖, Counter 剋 and Combine Counter 合剋), and naming all Ten Gods for your own Day Master from first principles.

IN-PERSON CLASS 1 · 2 HOURS WITH TIFFANY

Your Chart and the Ten Gods

Name the Ten Gods from first principles, compare your own chart with your classmates', and leave with a corrected chart showing your Ten Gods, trait complexity, Month Branch Ten God and career pathway.

BLOCK 2 · VIDEOS 6 TO 10

Chart preparation, real solar time, seasons and Southern Hemisphere births

06 **Read the Chart: Pillars, Stems, Branches and Hidden Stems**
All ten Heavenly Stems and twelve Earthly Branches with their elements, polarity and animals, the hidden stems, the 60 Jia Zi cycle, and how to check birth data, time zones and daylight saving before you read.

07 **Real Solar Time and Birth Time Boundaries**
Why your clock time is not your solar time: correcting for daylight saving, longitude and the equation of time, with Singapore as the worked example, and what to do when a birth falls near an hour boundary.

08 **Seasons, Solar Terms and the Month Branch**
Why the month branch, not the calendar month, sets the season, and how to find it for births close to a solar-term boundary.

09 **The Five Seasonal States and Seasonal Strength**
Prosperous 旺, Strong 相, Weak 休, Trapped 囚 and Dead 死: judging which elements are in season (得令), including the Earth months.

10 **Born in the Southern Hemisphere**
How the time and season checks change for births south of the equator, the two conventions you will meet, and the convention Tiffany uses.

IN-PERSON CLASS 2 · 2 HOURS WITH TIFFANY

Chart Preparation, Real Solar Time, Seasons and Southern Hemisphere Practice

Correct a Singapore birth and an overseas birth to true solar time, compare each chart before and after the correction, and assess seasonal strength on a matched Northern and Southern Hemisphere pair.

BLOCK 3 · VIDEOS 11 TO 15

Three-factor strength and a first complete analysis

11 **Positional Strength: Roots in the Earthly Branches**
Use the hidden stems to find each stem's roots and grade positional strength (得地) as strong, weak or none.

12 **Supportive Strength from Companions and Resource**
Assess supportive strength (得勢), and see why counting elements or reading the season alone is not a full assessment.

13 **Weighing the Three Factors**
Combine 得令, 得地 and 得勢 in a fixed order, and compare charts with similar element counts but very different real support.

14 **Is the Day Master Strong or Weak?**
Reach and defend a strong or weak verdict, including borderline cases where the factors disagree, and take a first look at the favourable element.

15 **Complete a Foundation Chart Analysis**
Bring it all together, from checked birth data to Ten Gods, strength and a provisional favourable direction, linked back to your traits and career pathway.

IN-PERSON CLASS 3 · 2 HOURS WITH TIFFANY

Strength Assessment and First Complete Reading

Resolve a case where the strength factors conflict, present your foundation analysis in a small group, and correct your first complete chart report with Tiffany's feedback.

What students say

"I went into the workshop with zero BaZi knowledge and came out being able to read my chart! Tiffany breaks it down step by step, and the examples she gives make it really easy to understand. It's not just theory—she makes it practical and relevant. Highly recommend for anyone who wants to get to know themselves better!"

Yu Hui, Singapore

"As someone who doesn't speak or read Chinese, I was a bit nervous about learning BaZi. But Tiffany explained everything so clearly and in such a structured way, I never felt lost. The class was engaging and surprisingly easy to follow. I'm from Spain and totally new to this, but I walked away with real tools to understand my own chart!"
